TECTONOPHYSICS—Volume 238—Nos. 1–4

Special Issue

LATE OROGENIC EXTENSION

Selected papers from the conference "Late Orogenic Extension in Mountain Belts", held in Montpellier, 4–6 March 1993

Edited by:

LATE OROGENIC EXTENSION

CONTENTS

Preface vii

The evolution of the Hornelen Basin detachment system, western Norway: implications for the style of late orogenic extension in the southern Scandinavian Caledonides
W.J. Wilks and S.J. Cuthbert 1

Extension-parallel folding in the Scandinavian Caledonides: implications for late-orogenic processes
A. Chauvet and M. Séranne 31

Late Devonian–Carboniferous detachment faulting and extensional tectonics in western Cape Breton Island, Nova Scotia, Canada
G. Lynch and C. Tremblay 55

Extensional unroofing of granulitic lower crust and related low-pressure, high-temperature metamorphism in the Saxonian Granulite Massif, Germany
J. Reinhardt and U. Kleemann 71

Extensional tectonics in the central Iberian Peninsula during the Variscan to Alpine transition
M. Doblas, J. López-Ruiz, R. Oyarzun, V. Mahecha, Y. Sanchez Moya, M. Hoyos, J.-M. Cebriá, R. Capote, J.L. Hernández Enrile, J. Lillo, R. Lunar, A. Ramos and A. Sopeña 95

Tectonothermal evolution associated with Variscan crustal extension in the Tormes Gneiss Dome (NW Salamanca, Iberian Massif, Spain)
J. Escuder Viruete, R. Arenas and J.R. Martínez Catalán 117

Kinematics of orogenic collapse in the Variscan Pyrenees deduced from microstructures in porphyroblastic rocks from the Lys-Caillaouas massif
D.G.A.M. Aerden 139
Sr–Nd isotope and trace-element geochemistry of late Variscan volcanism in the Pyrenees: magmatism in post-orogenic extension?
C. Innocent, L. Briqueu and B. Cabanis 161
Magmagenesis associated with extension in orogenic belts: examples from the Himalaya and Tibet
S. Inger 183
Recent movements along the Main Boundary Thrust of the Himalayas: normal faulting in an over-critical thrust wedge?
J.-L. Mugnier, P. Huyghe, E. Chalaron and G. Mascle 199
The system of extensional structures developed in the late Yanshanian orogeny in the west of Shandong Province, China
W. Guiliang, J. Bo, Y. Zhiwei and Y. Shouxun 217
The Tertiary structural and thermal evolution of the Central Alps—compressional and extensional structures in an orogenic belt
A. Steck and J. Hunziker 229
Extensional faulting in an intraoceanic subduction complex—working hypothesis for the Palaeogene of the Alps–Apennine system
E.H. Hoogerduijn Strating 255
Anatomy of late orogenic extension: the Northern Apennines case
J.V.A. Keller, G. Minelli and G. Pialli 275
Tertiary extensional tectonics in Tuscany (Northern Apennines, Italy)
L. Carmignani, F.A. Decandia, P.L. Fantozzi, A. Lazzarotto, D. Liotta and M. Meccheri 295
Extensional collapse related to compressional uplift in the Alpine Chain off northern Tunisia (Central Mediterranean)
P. Tricart, L. Torelli, A. Argnani, F. Rekhiss and N. Zitellini 317
Fission track analysis of the crystalline basement rocks of the Calabrian Arc, southern Italy: evidence of Oligo–Miocene late-orogenic extension and erosion
S.N. Thomson 331
Cooling and exhumation of the Western Betic Cordilleras, $^{40}Ar/^{39}Ar$ thermochronological constraints on a collapsed terrane
P. Monié, R.L. Torres-Roldán and A. García-Casco 353
The Ronda peridotites (Los Reales nappe): an example of the relationship between lithospheric thickening by oblique tectonics and late extensional deformation within the Betic Cordillera (Spain)
J.M. Tubía 381
Crustal-scale geometry and kinematics of late-orogenic extension in the central Aegean (Cyclades and Evvia Island)
P. Gautier and J.-P. Brun 399
$^{40}Ar/^{39}Ar$ thermochronologic constraints on the tectonothermal evolution of the northern East Humboldt Range metamorphic core complex, Nevada
A.J. McGrew and L.W. Snee 425
Extension in south-central British Columbia: mechanical and thermal controls
M. Bardoux and J.-C. Mareschal 451
Thermal regime and post-orogenic extension in collision belts
J.-C. Mareschal 471
